

CLIMATE CHANGE

DID YOU KNOW?

1. **NEARLY 75% OF THE WORLD'S** TROPICAL FORESTS HAVE BEEN DESTROYED OR SEVERELY DAMAGED.
2. **2/3 OF THE WORLD'S** CARBON BANKS OR SINKS ARE BEING SEVERELY DEGRADED.
3. THE OCEAN IS FORCED TO ABSORB MORE ATMOSPHERIC CARBON.
4. INCREASED OCEAN ACIDITY THREATENS THE ENTIRE OCEANIC FOOD CHAIN.

YOU CAN MAKE A DIFFERENCE!

- PLANT TREES AND COVER THE GROUND TO REDUCE HIGH AMOUNTS OF CARBON IN THE ATMOSPHERE.
- KEEP SOIL COVERED WITH VEGETATION AND ORGANIC MATTER!
